

***IAC Acoustics Expands on the IAC Virtual Platform
Introducing our Cloud Based Software tool for Acoustic Enclosures***

N. Aurora – February 14, 2019 – [IAC Acoustics](#), a division of [Sound Seal](#), and a leading manufacturer of metal noise control products and solutions serving the industrial, commercial, architectural, and construction industries, is pleased to introduce the Moduline® Virtual Enclosure Tool. This is the latest addition to our IAC virtual platform. IAC Virtual is a cloud-based design, development and quoting tool that simplifies and streamlines the enclosure quoting process for our valued reps, allowing them to generate and distribute customer quotes at the click of a button

Key Features of the IAC Virtual Moduline® Enclosure Tool Include:

- ✓ Four standard enclosure configurations to choose from
- ✓ All available design accessories including doors, windows and ventilation are available within the tool to complete your enclosure.
- ✓ Our Auto-Save feature saves your work as you go.
- ✓ Cloning of a project allows for faster output and quote generation.
- ✓ Allows for the client to Save and re-visit multiple projects anytime, anywhere
- ✓ Compatible with smartphone and tablet devices

“We are beyond excited to expand our virtual tool offering to include Moduline Enclosures. The HVAC tool that we launched back in 2017 has allowed our customers and the acoustic community the freedom and functionality to design and develop the solutions they need, when they need them,” said Jennifer Chagnon, Marketing Director for Sound Seal. IAC Acoustics prides itself on being a valued partner to our rep network. The Moduline Virtual Tool demonstrates the steps we are taking to live up to that promise.

“Configure, Price & Quote (CPQ) tools are the way to go and in the next 12-24 months Sound Seal will significantly increase the adoption of these tools across all of our Divisions under the concept of the IAC and Sound Seal Virtual Tools,” said Joe Lupone, CEO for Sound Seal. “This investment in technology will improve how we work with our channel partners and enable us to pull away as the easiest and most efficient supplier to do business with.”

###
