

IAC appoints Acoustical Solutions Exclusive Representative for Mid-Atlantic, GA and TX

All Industrial and Architectural Products

Richmond, VA – February 21, 2017 – [IAC Acoustics](#), a division of [Sound Seal](#), and a leading manufacturer of metal acoustical and noise control products and solutions serving the industrial, commercial, architectural, and construction industries, today announced the appointment of Acoustical Solutions as their exclusive sales representative for the Mid Atlantic (Virginia, Maryland, District of Columbia), Georgia, and Texas territories. With this announcement, Acoustical Solutions will represent the entire IAC industrial and architectural product offering including: Noiselock® doors and windows, Module® acoustic enclosures, SCIF rooms, and turn-key acoustic barrier solutions.

Acoustical Solutions is a leading supplier of acoustical products used in gymnasiums, commercial offices, houses of worship, restaurants and hotels, music studios, and industrial institutions to solve noise control problems. IAC acoustical doors, windows and other products have been installed in thousands of industrial and architectural applications for more than 40 years. IAC and Acoustical Solutions have built their reputations by providing superior quality products and excellent service.

Joe Niemann, President of Acoustical Solutions, stated “We are pleased to announce this new relationship with IAC and to add their premier product offering to our portfolio. Our focus will be to work within our territories to assist architects and engineers in specifying the correct IAC products into their commercial and industrial construction projects.”

“We are very excited to partner with Acoustical Solutions to represent our product portfolio.” said David Smith, President of IAC Acoustics. “The team at Acoustical Solutions has decades of knowledge and success in the noise control industry, which is exactly what we look for in a partner. I have complete confidence that they will be successful in representing the IAC products and supporting the customer through the entire process.”
